## **Important Notice About Your Prescription Drug Coverage and Medicare**

Please read this notice carefully and keep it where you can find it. This notice has information about your current prescription drug coverage with Tenneco and about your options under Medicare's prescription drug coverage. This information can help you decide whether or not you want to join a Medicare drug plan. Information about where you can get help to make decisions about your prescription drug coverage is at the end of this notice.

There are three important things you need to know about your current coverage and Medicare's prescription drug coverage:

1. Medicare prescription drug coverage became available in 2006 to everyone with Medicare. You can get this coverage if you join a Medicare Prescription Drug Plan or join a Medicare Advantage Plan (like an HMO or PPO) that offers prescription drug coverage. All Medicare drug plans provide at least a standard level of coverage set by Medicare. Some plans may also offer more coverage for a higher monthly premium.
2. Tenneco has determined that the prescription drug coverage offered by the HRA Plan itself, on average for all HRA Plan participants, is NOT expected to pay out as much as standard Medicare prescription drug coverage pays. Therefore, your coverage is considered Non-Creditable Coverage. This is important because, most likely, you will get more help with your drug costs if you join a Medicare drug plan than if you only have your annual credit under the HRA Plan to reimburse your prescription drug expenses. This also is important because it may mean that you may pay a higher premium (a penalty) if you do not join a Medicare drug plan when you first become eligible. Accordingly, you may want to consider using your annual credit under the HRA Plan to reimburse your premiums for the purchase of a Medicare drug plan.
3. You may use your annual credit under the HRA Plan to reimburse any eligible medical expenses; you are not required to use them to purchase Medicare drug plan coverage. However, because the HRA Plan does not itself provide creditable prescription drug coverage, you have decisions to make about Medicare prescription drug coverage that may affect how much you pay for that coverage depending on if and when you join a drug plan. When you make your decision, you should compare your annual credit under the HRA plan to your likely annual prescription drug expenses and the annual cost of the plans offering Medicare prescription drug coverage in your area. Read this notice carefully - it explains your options.

### **When Can You Join a Medicare Drug Plan?**

You can join a Medicare drug plan when you first become eligible for Medicare and each year from October 15th to December 7th.

### **When Will You Pay a Higher Premium (Penalty) To Join a Medicare Drug Plan?**

Because the coverage under HRA Plan is not creditable, depending on how long you go without creditable prescription drug coverage you may pay a penalty to join a Medicare drug plan. Starting with the end of the last month that you were first eligible to join a Medicare drug plan but didn't join, if

you go 63 continuous days or longer without prescription drug coverage that's creditable, your monthly premium may go up by at least 1% of the Medicare base beneficiary premium per month for every month that you did not have that coverage. For example, if you go nineteen months without creditable coverage, your premium may consistently be at least 19% higher than the Medicare base beneficiary premium. You may have to pay this higher premium (penalty) as long as you have Medicare prescription drug coverage. In addition, you may have to wait until the following October to join.

### **What Happens to Your HRA Plan Coverage If You Decide to Join a Medicare Drug Plan?**

If you decide to join a Medicare drug plan, your HRA Plan coverage will not be affected. You may use your annual credit under the HRA Plan to reimburse premiums you pay for your Medicare Drug Plan coverage, or you may use it to reimburse other eligible medical expenses. Or you may choose to use part of your annual credit to reimburse part of your Medicare drug plan premiums and part to reimburse other eligible medical expenses. You decide the eligible medical expenses for which you will claim reimbursement from your account under the HRA Plan each year.
